

Dear _____,

My name is _____ and I am a constituent from _____. I am also an advocate for the community of individuals impacted by Hereditary Angioedema (HAE), a very rare and potentially life-threatening genetic condition that occurs in about 1 in 10,000 to 1 in 50,000 people. HAE symptoms include episodes of edema (swelling) in various body parts including the hands, feet, face and airway.

On behalf of patients with chronic health conditions, I urge the Senator to oppose the Graham-Cassidy healthcare proposal. This proposal would be absolutely devastating to individuals and families affected by chronic illness that rely on access to quality, affordable health care.

[Explain a little about your particular situation]

Thank you for your consideration of my request. Please tell me how you have responded to my request.

Sincerely,

[Name]
